

PROVIDING SITE-BASED EXPERTS OUR CLIENTS NEED

Whether you need a single resource or a full team of experts, we can help. We provide the right experts for your site-based needs, including owner's engineering, turnaround management, maintenance & capital project support, day-to-day operations support, and more. We identify the Audubon candidate with the right qualifications and skill set, and if needed, recruit and hire externally. Aligning talent with your unique facility operations, we enable our clients to efficiently scale up or down throughout the project life cycle. Our professionals are full-time Audubon employees who integrate seamlessly with your existing team and act as a natural extension of your facility's workforce. They are provided comprehensive employee benefits and supported by Audubon's technical engineering support, HSE, as well as site-specific training and PPE, home office engineering support for overflow work, and full project control capabilities.

We provide personnel from a broad range of disciplines, including:

- Multidisciplinary Engineering
- Project Management
- HSE
- Operations & Maintenance
- Project Controls
- Supply Chain
- Construction
- Commissioning

THE AUDUBON ADVANTAGE

- Maximize Value of Existing Resources
- Access to Diverse and/or Specialized Skill Sets
- Greater Flexibility in Scaling Resources Up or Down as Needed
- Aligned Talent with Operations
- Improved Cost Control to Stay within Specified Budget for Project
- Improved Workforce Efficiency
- Reduced Overhead & Recruiting Costs
- Reduced Employer Burdens
- Ensures Project Milestones & Spending Stay on Target
