

PROCESS SAFETY AND RISK MANAGEMENT

IMPROVING THE SAFETY AND INTEGRITY OF FACILITY ASSETS

At Audubon Companies, we help you go beyond compliance - we strive to achieve the highest level of safety, avoid adverse environmental impacts, and improve business value and performance for every project. Our team of process safety and risk management specialists use advanced methodologies and technologies to assess and implement comprehensive safety and risk management programs. With decades of process safety experience in the energy sector, we ensure safe, uninterrupted operations that comply with OSHA, DOT, EPA & BSEE regulations.
